

Yoga Activity

We all want to be that "perfect yogi".

The yogi whose skin glows like a baby and has a smile that's practically tattooed on her face as she's never felt any form of anger or frustration.

The beauty of yoga is that no matter how long you hold your headstand or how deep into the splits you go, you can always push yourself forward.

It's not your history but your presence on your mat that matters...Let us have a few glimpses of our your yogis demonstrating different yog mudra and body stretching postures along with inculcating gross motor skills and fine motor skills and also various sports skills....

Morning Assembly

A school morning assembly is the best floor where all students gather for different purposes such as special programs, different competitions among students, communicating information on a daily, weekly, or monthly basis. Moreover, in some schools students gather to perform different activities such as common songs or prayers, national anthem, and to receive common announcements.

Singing and Dancing Activity

Singing and dancing are fun activities for children yet have advantages for their development. By singing, children can understand language and sound. They can improve their vocabulary and communication skills. Language development is not the only benefit of music. If children have a successful musical experience they can bond emotionally and intellectually with others in a creative learning environment.

Classroom fun

When we hear the word 'classroom', the first things we think about are teachers, blackboards, chalk, and duster. But today, technology has surpassed our imagination of the classroom. During the pandemic, we have seen a noticeable increase in educational standards, advancements, and innovations in the field of education. Schools and other educational institutions have adopted modern teaching methods through virtual whiteboards, projectors, and other audio/visual components. All these elements of a smart class make learning fun and interesting for the students and enable teachers to teach effectively.

Building games and outside play. Play is important for preschooler cognitive development.

Preschoolers often ask a lot of questions and start understanding more complex concepts. Preschoolers learn best when you let them lead play.

Play ideas for preschooler cognitive development include reading, board and memory games, building games and outside play.

Health Checkups for Students

Shanti Niketan School Conducts Health Checkups for Students

Health is a top priority for parents when it comes to their children. That's why Shanti Niketan School in Meerut has taken the initiative to conduct health check-ups for its students on a regular basis in addition to providing quality education.

Inter House Debate & Inter House Dance Competition

Mother's Day Celebration

Shanti Niketan Vidya peeth is a school that celebrates mothers day with great enthusiasm and fervor. The school organizes various functions and events to make this day special for all the mothers. On this day, children express their love and gratitude towards their mothers by performing various cultural activities such as singing, dancing, skits, and reciting poems.
